## Preface.

---

THIS Volume contains the remainder of Additional Manuscript No. 37,149, commenced in Vol. II, Part I (Harl. Soc., Vol. LXVII), of the Grantees of Arms, completing Foster's Alphabetical Lists. The two volumes being now printed, it may be useful to add a few notes on them.

In looking up a Patent, it will be well also to refer to the second Vol. of Edmondson's *Heraldry*, in which a section following the Alphabet of Arms is headed: "To which is added, by way of Appendix, A Collection of New Arms, Crests, Mottoes, &c., which have been granted at the Herald's Office since the year 1770." The book bears the date 1780. This includes some of the Grants made by Stephen Martin Leake, Sir Charles Townley, Thomas Browne, Ralph Bigland and Isaac Heard. Also Berry's *Encyclopædia Heraldica*, Burke's *Armory*, a Calendar of Printed Grants of Arms, published by my brother, Mr. J. Paul Rylands, F.S.A., in the *Historic Society of Lancashire and Cheshire*, Vol. LII, 1901, and *Shropshire Grants of Arms*, published by the Rev. W. G. D. Fletcher, M.A., F.S.A., in the *Transactions of the Shropshire Archæological and Natural History Society* in 1909, and lastly for references to MSS. in the British Museum, "Grants and Certificates of Arms," by Mr. Arthur J. Jewers, F.S.A., communicated to the *Genealogist*, beginning in Vol. XIII, 1897, of the New Series, and completed in Vol. XXIX, 1913, may also be referred to.

Two references by Foster in the first volume (Harl. Soc., Vol. LXVI) may be mentioned. The letters "V. O. G." refer to a collection called *Vincent Old Grants*. The words "Le Neve's MS." constantly occur. This MS. was offered for sale by Mr. E. Menken, among other books from the library of the late Joseph Foster, in November, 1905. In the catalogue, under No. 213, it occurs as follows:—"Heraldic Manuscript—Shirley (Sir Thomas). A Collection of Grants of Arms by sundry Kings of Arms and their Lieutenants, inside the cover of which Peter le Neve, Norroy, has written:—'Formerly Sir Thomas Shirley's book, of Wistandson in Sussex,

Kt., see Sir Thomas Shirley's hand, page 269. Memorand. This book I have Xtended by the name of "Shirley," P. le Neve, Norroy', a neatly written old MS. of 516 pp. showing nearly 1,500 Coats of Arms, excellently Tricked and with 11 pp. of Index. . . . old hf. binding, with bookplates of Wm. Constable, F.R.S., and Joseph Foster, with MS. insertions.'"

This manuscript is often quoted by Peter le Neve, under the title it was christened by him, in his *Book of Knights*, published by the Harleian Society. Another MS. volume also referred to by Le Neve was Morgan's *Book of Grants*, and it is perhaps the one that occurs in Messrs. Ellis & Elvey's *Sale Catalogue*, No. 73, under No 426: "Morgan (Sylvanus) *Pattents of Armes* [about 1640]. Folio, The Original Manuscript of an unpublished collection of nearly two hundred grants, with the greater part of the coats-of-arms richly emblazoned in gold and colours, half calf. The chief portion of this valuable compilation is in the autograph of Sylvanus Morgan, the author of the 'Sphere of Gentry.'"

The list, called "Miscellanea, College of Arms," 1637 to 1637, printed on pages ix to xiii, has been added because it gives a number of notes and references to the Grant Books Vols. I, II and III, not always included in Foster's *Alphabetical List*, printed in Vol. I (Harl. Soc., Vol. LXVI) of *Grantees of Arms*. It may be mentioned that in looking for a Patent dated towards the end of the seventeenth century it will be well to look in both the printed volumes, as Foster has not strictly adhered to the dates fixed by him for the division of the two manuscripts.

Our thanks are due to him for having collected all these valuable references, but it is much to be regretted that when he compiled the list contained in his *Volume of Grants* made between the years 1687 and 1898 (really 1900) that he paid so much attention to the later Grants beginning about the year 1847. It would have been more useful if he had been careful to collect all the dates of the earlier and more interesting Patents, as the dating of them is, of course, very difficult. There are no Harleian and other manuscripts to refer to, as was the case in Vol. I.

It is quite clear that his list is a series of abstracts from the index to the Grant Books, and that he did not examine the copies of the Patents contained in the volumes.

I feel sorry that at first I relied on Foster's *List of the Grant Books*, given in Vol. II, Part 2, page 7; it soon became evident, however, that the only way to get with any safety out of this maze of over two hundred years of dates and figures was to tabulate all the information contained in the Manuscript under the volumes, years, and pages. This I

have done, giving all the year-dates of the Patents mentioned by Foster, as well as those gleaned from printed books. It did not quite clear up all the difficulties, although it proved what I had already suspected, that necessary delays and alterations had caused the Grants in some volumes not to be entered in strict chronological order. This, as well as the difference between the Old Style and New Style, added to the uncertainty. The dates of the Patents given by Foster are probably correct, as also those given in the printed copies, but it will be noticed that they do not always agree with the volume-date.

From this tabular list it was possible to give a date to many of the Patents; it must, however, be clearly understood that in Vol II the years in square brackets immediately before the numbers of the volumes cannot always be taken with certainty as the date of any Patent. It is the year-date that fits in with the number of volume and page, given in Foster's List.

It must also be pointed out that, although, as I have said, the dates inserted by myself in square brackets are not necessarily exactly the date of the Patent, many of them are, and those that are not, I think, cannot be far wrong, and some of them may be checked by the year in which some honour was given.

Whatever may be the errors in the condensed form of the tabulated list of the contents of the volumes, it seems useful to print it as a kind of Hand List. It will be found on pages xxxvii to xl (List B) in the present Volume. Fortunately, I had by me another List (List A, pp. xxxv and xxxvi), and it will be noticed that some of the dates differ from those given in List B. Differences occur at the beginning or end of some of the volumes, and only in one instance is this difference more than one year. It is the end of Volume XVIII, List B has 1795 instead of 1793 in List A, and, in this instance, 1793 would suit the entry for Sir Charles Whitworth, K.B., and it may be that the Grant of Supporters was entered, like others, out of place. In some of the other cases the same explanation may hold good, and in others the date may be that of another kind of document, bearing on, but not absolutely, a Grant. Foster only copied references to Patents. It will be noticed, also, that each Volume of Grants contains entries covering two or more years, so it is not surprising that I have been unable to state in List B the exact page on which one year ends and the next begins. This, with all the other difficulties, could only be settled by an examination of the whole series of the original books, and this is naturally impossible.

All additions to the original text are placed in square brackets.

I have worked through these volumes with one object, and I can only hope that, however imperfectly the work has been done, they may before long form the foundation of an Armory of Authorised Arms.

Perhaps, after what I have written above, it will be unnecessary for me to apologise for the long, but unavoidably long, list of Additions and Corrections. It will be found to contain a number of references to the printed copies of Grants, and I very gratefully acknowledge the kind assistance I have received, in this as well as in other matters connected with the book, from friends and correspondents.

To the Rev. W. G. Dimock Fletcher, who has spared no pains or trouble to add to the correctness and interest of the volumes; to the Chairman, Sir George J. Armytage, Bart, F.S.A.; Mr. William F. Carter; Mr. J. Paul Rylands, F.S.A.; Mr. F. C. Beazley, F.S.A.; the Secretary, Mr. W. Bruce Bannerman, F.S.A.; Mr. Francis A. Foster, of Edgartown, Massachusetts; Mr. S. A. Grundy-Newman; Mr. Herbert C. Andrews; and Mr. Vere L. Oliver; I would offer my best thanks for all the help they have so kindly and freely given.

I must also add that the printers, Messrs. Roworth & Co., have always continued to give me the same consideration and advice.

W. HARRY RYLANDS.
